Re:	Latin Placement at the Mountain School (Fall Term)

_____ is planning to take Latin at the Mountain School this fall. Please answer the following brief questions to help us plan a course of study for this student that will best meet his or her needs.

1. What class materials is this student accustomed to using? (e.g., Latin grammar text only, literacy text plus additional notes/commentary, notes and English translations) What specific textbook did this student learn Latin from?

2. Is this student planning on taking the AP Latin exam in the spring? If so, which authors is the student studying?

3. What textbook would this student use if he or she were continuing on in your school this fall? What would this student be reading? Please be specific (if it's the Aeneid, what books?) **Students should bring their fall semester textbook to the Mountain School when they come in August.**

4. What would you expect this student to accomplish during the fall term of the coming year? Please be specific. (e.g., meter, biographical information on author(s), literary analysis; specific lines and/or page numbers that you expect to cover is very helpful.) Any additional comments on this student's level of achievement would be appreciated.
